REMARKS

- 25X1 1. Between 8 a.m. and 2 p.m. on 15 July 1953, 19 MiG-15s, 2 single-engine aircraft with radial engines, and 1 Pe-2, the latter parked near the aircraft repair shop, were observed at Parndorf (P 48/X 77) airfield. There was a 3/10 overcast, a northwesterly wind of about 5 km/h and visibility of about 20 km. At about 8 a.m., three MiG-15s took off in short succession. The aircraft did not return to the field up to about 2 p.m.
- 25X1 2. A fence was erected around the garages and the hut, at which the Moskvich van-like trucks were observed being refueled. A total of about 22 motor vehicles were counted in the garages and 6 trucks,
- 25X1 2 van-like trucks, and 1 tank trucks,  were parked in front of the garages.
3. Four 37-mm AA guns and sentries wearing red-bordered black epaulets were observed at the AA gun emplacements along the western edge of the field. The radio installations at the northwestern edge of the field and the lighting facilities on the eastern edge, including the row of searchlights and two antenna masts with cone-shaped bracings, were unchanged. A number of soldiers, wearing black-bordered blue and red-bordered black epaulets, simultaneously left the temporary building east of the battery charging station and, after a short time, apparently an interval between lessons, entered the building again.
- 25X1 4. Between 8 a.m. and 2 p.m. on 16 July, repair work was being done on telephone lines between Bruck/Leitha (P 49/X 77) and Parndorf. Individual telephone poles were being replaced by new ones. Truck  with driver wearing black-bordered black epaulets, hauled new poles from the woods camp in Bruck/Leitha.
- 25X1 The old komendatura in Bruck/Leitha was guarded by sentries wearing black-bordered blue epaulets. Two majors, with blue service color and 1 major wearing black-bordered red epaulets, as well as truck  and jeep  with drivers wearing black-bordered blue epaulets, were observed there.
- 25X1 1.  Comment. Parndorf airfield is occupied by a Soviet fighter regiment of the Northern Ftr Div which is stationed in Aspern.
- 25X1 2.  Comment. The old komendatura in Bruck/Leitha apparently operates in close connection with Parndorf airfield. A portion of the air force personnel from Parndorf airfield is probably quartered in Bruck/Leitha. It has not been determined whether the komendatura in Bruck/Leitha is subordinate to the headquarters of the unit at Parndorf airfield or vice versa.
